

# Jonathan Aucancela

Full Stack Software Engineer

✉ [jonathan\\_jd@outlook.com](mailto:jonathan_jd@outlook.com) ☎ +593 998 956 361 📍 Quito, Ecuador 🌐 [Portfolio](#) [LinkedIn](#) [GitHub](#)

## Summary

Full Stack Developer with experience in web application development using Python, Django, FastAPI, Vue.js, and PostgreSQL. I have participated in the building, testing, and deployment of web solutions, applying best practices in development, version control, and automation. I am interested in creating scalable, maintainable applications that address real business needs.

## Experience

**Universidad Tecnológica Equinoccial - UTE**

Quito, Ecuador

Software Developer Jr.

May. 2026 - Present

Developer on the ITIC team at UTE, with a mixed profile of development and technical support for academic and administrative systems: Oracle Banner ERP (reporting and queries) and Sicafe in SQL Server (academic services, tuition refunds, and parking management). Experience building ETL pipelines, stored procedures, and features in Power Apps.

**Freelancer**

Remote

Full Stack Developer

Sep. 2025 - May. 2026

Design, development, and implementation of custom software solutions for companies in the education, cooperative finance, and professional services sectors. Comprehensive project management: from requirements gathering to production delivery.

<https://davidaucancela-portfolio.vercel.app/#dev>

**Firma Consulting**

Quito, Ecuador

Full Stack Developer

Dec. 2025 - Jan. 2026

Backend services and frontend for a cooperative finance management platform. .NET Core, React, MySQL, Redis, Entity Framework. Implemented caching layer for performance and database query optimization.

## Education

**Escuela Superior Politécnica de Chimborazo - ESPOCH**

Software Engineer • 9.20

Information technologies

Chimborazo, Ecuador • May. 2021 - Jan. 2026

Software engineering training with an emphasis on systems development, databases, and application architecture.

Graduation project focused on the complete development of a web system incorporating semantic search using NLP.

**Cambridge - ESPOCH**

English proficiency • 9

Languages

Chimborazo, Ecuador • Dec. 2025 - Jan. 2026

I developed skills in listening comprehension, reading, writing, and oral communication. During the course, I strengthened my abilities to hold conversations in English, understand academic and technical texts, draft documents, and communicate ideas effectively in educational and professional settings.

## Volunteer

**IEEE Computer Society – Student Branch ESPOCH**

2024 - 2025

Chimborazo, Ecuador

Collaboration on technology projects focused on innovation and the development of systems and software architectures.

Representation of the university at international programming hackathons.

**CODE ESPOCH - Multidisciplinary group**

2023 - 2025

Chimborazo, Ecuador

Business logic development with Python-Django, integrating REST services for communication with various communication modules across different systems.

## Publications

**Development of a web storage system with semantic search for shipment registration at Universal Box ESPOCH** 01/08/2026

The web storage system called “UBApp” was developed, which automates the processes of registering and searching for shipments. A natural language query module was integrated using a semantic process.

## Featured Projects

- Nunna

Mar. 2026 - Jan. 2026

Cultural heritage platform documenting traditional characters of Riobamba parades. Built with Next.js, NestJS, and Directus as headless CMS. Deployed on Railway with optimized cold-start configuration.

<https://nunnaec-production.up.railway.app/>
- UBApp

Feb. 2025 - Dec. 2025

Comprehensive shipment management system with AI-powered semantic search, geographic visualization, and document generation. Built with Django (backend) and Angular (frontend), orchestrated with Docker Compose.

<https://ubapp-frontend.onrender.com/login>
- AnaOS

Dec. 2025 - Jan. 2026

Financial management platform for cooperative institutions (EPS) in Ecuador. Built with ASP.NETCore 9, Entity Framework, React, and PostgreSQL. Integrated Kushki for payment processing and automated regulatory compliance reporting.

<https://frontend-production-cc73.up.railway.app/>
- ArtEcuador

Dec. 2025 - Feb. 2026

Artisan e-commerce platform showcasing Ecuadorian handmade products. A selection of authentic Ecuadorian handicrafts, made by artisans from Andean and coastal communities. Each piece carries with it centuries of tradition and the living identity of our people.
